

TAKES NO BACKWARD STEP

President Forcefully Reasserts His Position Regarding Railroads.

They Should Be as Completely Under Governmental Control As Are the National Banks.

Indianapolis, Indiana. — President Roosevelt delivered the principal address in this city Thursday at the unveiling of the statue to Gen. Lawton, a veteran of the civil war, who died in the service of his country in the Philippines. The address had been looked forward to for weeks as being the first authoritative expression of the president's views regarding the relationship of the government to the railroads of the country.

After delivering an eulogy on Gen. Lawton and the veterans of the Civil war Mr. Roosevelt said among other things:

"One great problem that we have before us is to preserve the rights of property and these can only be preserved if we remember that they are in less jeopardy from the socialist and the anarchist than from the predatory man of wealth. The power of the nation must be exerted to stop crimes of cunning no less than crimes of violence. There can be no halt in the course we have deliberately elected to pursue, the policy of asserting the right of the nation, so far as it has the power to supervise and control the business use of wealth, especially in its corporate form. Today I wish to say a word to you about the first and most important feature of this task, the control of the common carriers doing an interstate business; a control absolutely vested in the nation. There must be vested in the federal government a full power of supervision and control over the railways doing interstate business; a power in many respects analogous to and as complete as that the government exercises over the national banks. It must possess the power to exercise supervision over the future issuance of stocks and bonds, either through a national incorporation (which I should prefer) or in some similar fashion.

The movement to regulate railways by law has come to stay. The people of this country have made up their minds and wisely made up their minds to exercise a closer control over all kinds of public service corporations, including railways. Every honestly managed railway will gain and not lose by the policy. The men more anxious to manipulate stocks than to make the management of their roads efficient and honest are the only ones who have cause to oppose it.

THE HAGUE CONFERENCE.

General Plan of Proceedings Has Not Been Worked Out—First Session Only Arranged.

The Hague. — The general plan of the proceedings at the second peace conference probably will follow closely the procedure of the first congress held in 1899. Practically nothing has been worked out in advance. The arrangements up to the present time simply cover the opening session, when Mr. Nelidoff the Russian ambassador to France, will call the conference to order and make an address extending his sovereign's greetings to the delegates. Dr. Jonkheer D. A. W. Van Tots Van Goudrain, the Dutch minister for foreign affairs will reply in an address of welcome on behalf of Queen Wilhelmina. Thereafter, it will remain for the conference to decide how it will proceed.

The lowest estimation of the duration of the conference is six weeks and the belief is that it will be in session between two and three months and it is quite possible the sittings may extend even beyond that time.

Nurses for Pupils in Boston.

Boston. — Considering the health of the pupils of the public schools to be of as great importance as their intellectual training, the Boston school committee has decided to appoint a corps of trained nurses, whose duty it shall be to safeguard the children. The plan provides for the appointment of 21 women nurses, who under a supervisor will be placed in charge of all the pupils.

Both Sons Convicted, Mother on Trial. Centerville, Mo. — The trial of Mrs. Mary E. Spangh, on a charge of complicity in the murder of Sheriff Polk of Iron county, by her sons, William and Arthur Spangh, May 31, 1905, was begun here Monday. Both sons have been convicted. Arthur Spangh is now serving a sentence of 99 years in the Missouri penitentiary and William Spangh is under sentence of death.

HER TOKEN OF THE PAST.

Husband Still Here, But Hair Had Long Departed.

A western man, who plumes himself on his fascination for the other sex, was not long ago presented to an attractive New York woman.

In course of their first tete-a-tete the man with winning ways at once took occasion to turn the conversation into his favorite channel. "I observe that you are wearing an especially fine locket," said he. "Tell me, does it contain some token of a past love affair?"

Aware of the westerner's weakness, the handsome New Yorker thought to humor him a bit. "Yes," smiled she, "it does contain a token of the past, a lock of my husband's hair."

"You don't mean to tell me that you're a widow!" exclaimed the westerner, in delighted surprise, as he nudged a trifle nearer. "I understood that your husband was alive."

"True," answered the beautiful creature; "but his hair is gone."—Sunday Magazine.

SORES AS BIG AS PENNIES.

Whole Head and Neck Covered—Hair All Came Out—Cured in Three Weeks by Cuticura.

"After having the measles my whole head and neck were covered with scaly sores about as large as a penny. They were just as thick as they could be. My hair all came out. I let the trouble run along, taking the doctor's blood remedies and rubbing on salve, but it did not seem to get any better. It stayed that way for about six months; then I got a set of the Cuticura Remedies, and in about a week I noticed a big difference, and in three weeks it was well entirely and I have not had the trouble any more, and as this was seven years ago, I consider myself cured. Mrs. Henry Porter, Albion, Neb., Aug. 25, 1906."

Medicine of Bamboo Sap.

In India the sap of the female bamboo tree is used for medicinal purposes. "Tabasheer," or "banslochan," is sold in all Indian bazars, as it has been known from the earliest times as a medicinal agent. It is also known in Borneo, and was an article of commerce with early Arab traders of the east. Its properties are said to be strengthening, tonic and cooling. It has been analyzed and has been shown to consist almost entirely of silica, with traces of lime and potash. From its remarkable occurrence in the hollows of bamboos the eastern mind has long associated it with miraculous powers.

Laundry work at home would be much more satisfactory if the right Starch were used. In order to get the desired stiffness, it is usually necessary to use so much starch that the beauty and fineness of the fabric is hidden behind a paste of varying thickness, which not only destroys the appearance, but also affects the wearing quality of the goods. This trouble can be entirely overcome by using Defiance Starch, as it can be applied much more thinly because of its greater strength than other makes.

Fine-Looking Royal Couple.

The king and queen of Denmark are indeed a regal-looking couple. King Frederick is a giant in stature, while his consort is the tallest royal woman in Europe. She is also the richest, having inherited a great deal of property from her father, the late King Charles of Sweden, besides the immense fortune of her mother, who was one of the richest heiresses of the nineteenth century. Her majesty is deeply religious.

Miss Passay—Many young girls nowadays are positively awful. The idea of one being engaged to two young men at the same time. It's simply shameful!

Miss Pert (maliciously)—And it's aggravating, too, isn't it?

An Anarchist.
"Thet air thin chicken with th' dragged feathers," remarked the old farmer, "I call th' anarchist."
"Why do you call him that?" queried the summer boarder.
"'Cause he spends so much time chasin' th' other chickens t' git their vittles away from 'em he ain't got no time t' hustle fer none fer hisself," explained the old granger.

PORTION OF R. J. REYNOLDS TOBACCO COMPANY'S PLANT 1906

The Largest, Best-Equipped and Cleanest Flat Plug Tobacco Manufacturing Plant in the World

The Reynolds factories, equipped with every modern appliance for producing the best chewing tobacco by a clean, sanitary and healthful process, under the direction of men who have made the business a life study, are located in the centre of the Piedmont tobacco belt, known to the world as the best productive soil for tobacco with an aroma so delightful, pleasing and appetizing that it created and popularized the fondness for chewing tobacco.

Only choice selections of this well-matured, thoroughly cured leaf are used in SCHNAPPS and others of the high-grade Reynolds brands, and expert tests prove that this tobacco requires and takes a smaller

amount of sweetening than any other kind, and has a wholesome, stimulating and satisfying effect on chewers.

SCHNAPPS is the brand that made the Reynolds factories famous as the manufacturers of the best and most popular brands of chewing tobacco, and made necessary the enormous growth

from a small factory in 1875 to the largest flat-plug factory in the world.

The men who started the Reynolds Co., in 1875, are directing it to-day. There are a greater number of manufacturers making imitations claimed to be just as good as SCHNAPPS than any commodity manufactured; yet there are more pounds of SCHNAPPS chewed than the total amount of all imitative brands, or tobacco of similar appearance.

Schnapps

We will ship SCHNAPPS direct from factory to retail dealers in lots of 10 lbs. and over, at the established jobbing price of 40c per pound, express or freight prepaid to nearest point to which a published through rate is obtainable from point of shipment; or mail to any address a sample 5c cut of SCHNAPPS and a cambric tobacco pouch, upon receipt of 5c in postage.
